ONETOUCH®

The OneTouch Reveal® web app – supporting you and your patients in tracking data and managing diabetes

OneTouch Reveal® mobile app

- Automatically synchronizes data from your OneTouch Verio Reflect® or OneTouch Verio Flex® meter helping you **spend less time looking for blood glucose patterns and trends.**
- **Connects blood glucose, food, insulin and activity**, data in one convenient place, accessible when you sync.

Designed to help you see what's working and what's not for your patients

- Helps track glucose and insulin data, and detect patterns.
- Creates dynamic, colourful reports based on preferences set and data available such as target ranges and devices connected when reports are run.
- Seamlessly gathers data from all the devices that are linked to a patient's account.

Helping your patients to stay on track between visits

- Glucose monitoring and insulin dosing pattern messages detected from patient devices appear in reports and can be used as a guide for managing diabetes.
- Reports can be printed to be ready for discussion at their next visit.

Quick steps to setting up and using the OneTouch Reveal® web app

It assists you and your patients

2 Add new patients

Option 2 – Link a patient to your clinic

- Instruct patient to install the OneTouch Reveal® mobile app and follow on-screen prompts to create an account
- Once installed, ensure patient pairs their OneTouch Verio Reflect® or OneTouch Verio Flex® meter with the mobile app
- Provide patient with your specific six digit Clinic Code and ask them to send a request to share data with your clinic
- Click on the Notification icon on your Profile picture, to access pending actions. Under the Patient Requests section, you will see a list of pending requests
- Click **Confirm** to accept request. Add **Patient ID** to help identify this patient in your records

For support, patients can refer to the meter Owner's Booklet or call 1-800-663-5521

Need help finding your Clinic Account Code? Click on **Manage Clinic** tab. Then go under **Settings > My Clinic > Clinic Code**

Enter Clinic Code:

Encourage your patients to activate their accounts so they can share their data

ONETOUCH®

Quick steps to setting up and using the OneTouch Reveal® web app

It assists you and your patients

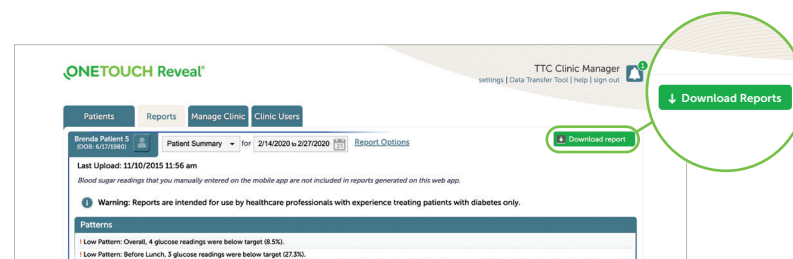

3 View reports

- Click the **Reports** tab in the OneTouch Reveal® web app
- Enter any part of the patient's name or ID in the **Search for Patient** bar, or sort by clicking on the top of any column
- Click on the patient's name
- You can now choose and view patient reports

4 Download and print reports

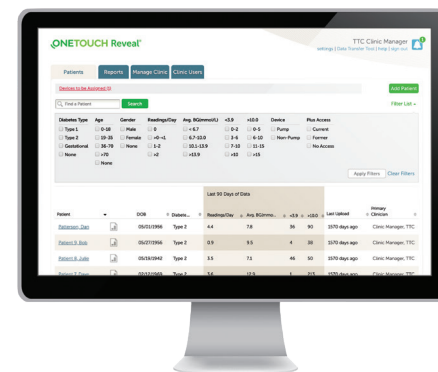

- Click **Download Reports** from the report you are viewing
- Choose a report appropriate for your consultation
- A PDF of the report will download. Double-click on the PDF to open and then print

5 Remotely monitor patient progress

The Patient Population Management Tool is designed so that you can filter and sort your patient information in meaningful ways:

- Patients with Type 1 diabetes with the most lows (< 4.0 mmol/L)
- Patients with Type 2 diabetes with the most highs (> 10.0 mmol/L)
- Average blood glucose readings for Type 1 and Type 2 patient populations
- Further refine your list by sorting for number of blood glucose readings per day
- Age, gender, etc.
