ColourSure[™] Dynamic Range Indicator

The ColourSure[™] Dynamic Range Indicator instantly lets you know if your reading is below (blue), within (green) or above (red) your range limits. It also shows when your reading is near the low or high end of your target range. A text note or emoji points to a segment on the Colour Bar

Examples of Readings

Low End of Range

Meal and event tagging

A Before Meal () tag will automatically be applied to your result. You may change your meal tag to After Meal (1) and add an Event tag.

Blood Sugar Mentor[™] Messages

The Blood Sugar Mentor[™] provides insight on how you're doing and diabetes management guidance, including educational and motivational messages based on your current and previous glucose results and other tracked data.

Examples of Blood Sugar Mentor[™] Messages

11.1	3.1	5.8
Pattern found 🛛 📮	Treat Low 🛛 🖞	Well done 😜
High in the last 5 days at this time. Has anything changed?	Low result, juice may help. Retest in 15 minutes.	Back in range after 2 Low results in a row.
